Work Force Network's highly trained team of technicians, led by our on-staff, factory trained Electrical Engineer/Hazmat Specialist, utilizes our 3,000 square feet of warehouse space to provide our customers with off-site solutions to a variety of mechanical, electrical, design and Hazardous Vapor Detection needs.

We work with our customers to find the most cost-effective solutions. We act as a facilitator and an industrial tool to handle their overflow of work and/or supply services not provided to our customers by in-house staff. Work Force offers logistical solutions as well, including free local delivery within a 30 mile radius of our Canton, MI facility.

Work Force Network's in-house service department is dedicated to working with customers to provide economical, professional, and efficient services. Our aim is to reduce the in-house workload of our customers. WFN provides a resource which allows our customers to take on more projects without over-extending their resources and personnel.
